भारतीय सूचना प्रौद्योगिकी संस्थान भागलपुर
Indian Institute of Information Technology Bhagalpur
An Institute of National Importance under Act of Parliament

2024-25
Recruitment Brochure

"Whether you win or lose, looking back and learning from your experience is a part of life"

About IIIT Bhagalpur

Indian Institute of Information Technology (IIIT) Bhagalpur is among the group of 25 interdisciplinary technology - based engineering research institutions in India focused on information technology.

The Institute aims to bring transformation to everyone's life. Education brings change to career and so does IIIT Bhagalpur. IIITBH instils cultural value in you and transforms you into a new you. We want to produce professionals in information technology and thus contribute to our nation's development.

Indian Institute of Information Technology Bhagalpur is one of the IIITs established in 2017 by the Ministry of Education (MoE), formerly the Ministry of Human Resource Development, Government of India, and a few industry partners as a Not-for-profit Public Private Partnership (N-PPP) Institution. IIIT Bhagalpur was declared an Institute of National Importance (INI) in September 2020.

Bhagalpur is a city of historical importance on the southern banks of the river Ganges in the Indian state of Bihar. It is the 3rd largest city of Bihar and the headquarters of the Bhagalpur district and Bhagalpur division, Known as the Silk City. It is a major educational, commercial, and political center, and is listed for development under the Smart City program, a joint venture between government and industry.

From Director's Desk

IIIT Bhagalpur adopted an ambitious mission and vision to become a leading institute in India. Globally renowned IIITBH has made a remarkable start in the field of Technical Education. Although there is still a long way to go, I am optimistic that we can accomplish all of our objectives with the enthusiastic support of everyone involved, including students, teachers, staff, collaborators, parents of students, regulatory bodies, and the community as a whole.

IIIT Bhagalpur trains the next generation of leaders out of young individuals. We prepare our students to be able to quickly adapt to a world that changes daily. In addition to imparting knowledge, comprehension skills, and innovative thinking, we also improve their competence and get them equipped to become tomorrow's architects. We take great pride in providing our students with world-class professionals steeped in Indian values with a modern perspective.

IIITBH is now on a fascinating journey of growth & development. In terms of its impact as a technical institution in the country, the institute has already made some significant achievements. The institute's very own lush green 50 acres campus on the bank of river Ganga is fast becoming operational.

The institute has remarkably increased its student strength from 70 in 2017 to over 700 today. This is likely to exceed 1100 by the end of next year. The institute's quality of teaching methodology comes from the careful choice of faculty members. As part of the updated curriculum, we offer students more choices and provide a sense of social responsibility and national commitment in them based on a hands-on approach with strong fundamentals. IITBH collaborates actively with the world's leading academic institutions and industry expanding its outreach. Collaborating on research is not just an added advantage in our portfolio, but also an integral element of our growth.

Prof. Pradip Kumar Jain
DIRECTOR, IIIT BHAGALPUR

IIITBH will soon emerge and prove itself as one of the best institutes in the field of information technology and IT-enabled automation

TPC FIC's Message

It would be our pleasure if you would consider our campus in either offline or virtual mode for the selection of candidates for Campus Recruitment with the Training & Placement cell at IIIT Bhagalpur. We will provide any logistical requirements that you may have for the smooth selection process. I would appreciate it if you would engage our students as potential employees for your organization. Please feel free to reach us for clarification and support.

IIIT Bhagalpur has progressed rapidly since its inception in 2017. We are pleased to invite you to participate in the recruitment of students for the final year of IIIT Bhagalpur batch 2019-2023 and the internships for the pre-final year 2020-2024. We currently function with 3 departments namely Computer Science & Engineering, Electronics & Communication Engineering, and Mechatronics Engineering.

However, the institute started with only 2 branches and the 1st batch of the institute of Department of Computer Science & Engineering and Department of Electronics & Communication Engineering graduated in 2021.

The institute's faculties have taken special care to impart practical learning to students. Students are encouraged to engage with society's social problems. We are sure that students of IIIT Bhagalpur will be able to excel in any challenging environment they encounter.

Dr. Gaurav Kumar
FIC TRAINING & PLACEMENT CELL

The expert at anything was once a beginner   -Halen Hyes

Programs Offered

IIIT Bhagalpur offers four B.Tech courses (Electronics and Communication Engineering, Computer Science and Engineering, Mechatronics Engineering and Mathematics and Computing), five M.Tech courses (Artificial Intelligence & Data Science, Signal Processing and Machine Learning, Electric Vehicle Technology, VLSI and Embedded System, & Microwave and Communication Systems) and Ph.D. programs from August 2021.

B.Tech

- Computer Science and Engineering
- Electronics and Communication Engineering
- Mechatronics and automation Engineering
- Mathematics and Computing

Course Duration: 4 Years

Internship Duration: 2, 6 months

2025 Batch: 250 Students

2026 Batch: 252 Students

M.Tech

- Artificial Intelligence & Data Science
- Signal Processing and Machine Learning
- Electric Vehicle Technology
- VLSI & Embedded Systems
- Microwave & Communication Systems

Course Duration: 2 Years

Internship Duration: 12 months

2025 Batch: 10 Students

Ph.D.

- Computer Science & Engineering
- Electronics & Communication Engineering
- Mechatronics Engineering
- Mathematics

Course Duration: 3 Years

Total Research areas: 17

Research areas: CSE = 7, ECE = 5

MEA = 3 and Mathematics = 2

Academic Programs

- B.Tech (CSE)
- B.Tech (ECE)
- B.Tech (MEA)
- M.Tech (CSE)
- Specialization in Artificial Science & Data Science
- Specialization in Signal Processing and Machine
- Specialization in Electric Vehicle Technology
- Specialization in VLSI & Embedded Systems
- Specialization in Microwave & Communication Systems
- Ph.D (Computer Science & Engineering, Electronics & Communication Engineering, Mechatronics Engineering, Mathematics)

Undergraduate Programs Overview:
At IIIT Bhagalpur, our undergraduate programs offer a dynamic blend of technical expertise and interdisciplinary knowledge. Each department emphasizes practical learning and cutting-edge technologies, preparing students for diverse career opportunities. Our commitment to high-quality education and research creates a nurturing environment for future innovators and leaders.

Computer Science & Engineering (CSE):
B.Tech in CSE/IT combines technical depth with interdisciplinary learning. Our curriculum integrates Science and Humanities, including Management, Physics, Statistics, Mathematics, Communication , Economics and Environment. Graduates emerge not only as technically proficient professionals but also possess a broad understanding of various fields.

Academic Programs

Electronics & Communication Engineering (ECE):
B.Tech in ECE equips students with advanced knowledge in electronic engineering and communication. The research-led teaching style incorporates the latest technologies, covering key areas such as communication, digital signal processing, microelectronics, VLSI, IoT, embedded systems, image processing, computer vision, and robotics.

Mechatronics and Automation Engineering:
B.Tech in Mechatronics and Automation Engineering is a pioneering program integrating mechanical design, manufacturing, automation, and electronic control. Graduates are prepared for diverse sectors, including aviation, electronics, automobile, manufacturing, oil and gas, mining, transport, defense, robotics, and aerospace industries.

Research and Innovation:
Our commitment to research and innovation is evident across all departments. The Computer Science and Engineering department focuses on Algorithms, Internet of Things, Computer Vision, Image and Video Processing, Cloud Computing, System, and Networking. The Electronics and Communication Engineering department thrives in areas like Communications, Digital Signal Processing, Microelectronics, VLSI, IoT & Embedded Systems, Image Processing, and Computer Vision.

Conclusion:
At IIIT Bhagalpur, our undergraduate programs provide a holistic education, fostering well-rounded professionals equipped with technical expertise and interdisciplinary knowledge. Join us to embark on a journey of innovation, research, and excellence.

Academic Demographics

IIIT Bhagalpur offers three B.Tech courses in Computer Science Engineering, Electronics and Communication Engineering and Mechatronics. The institute has started M.Tech and Ph.D. programs from August 2021.
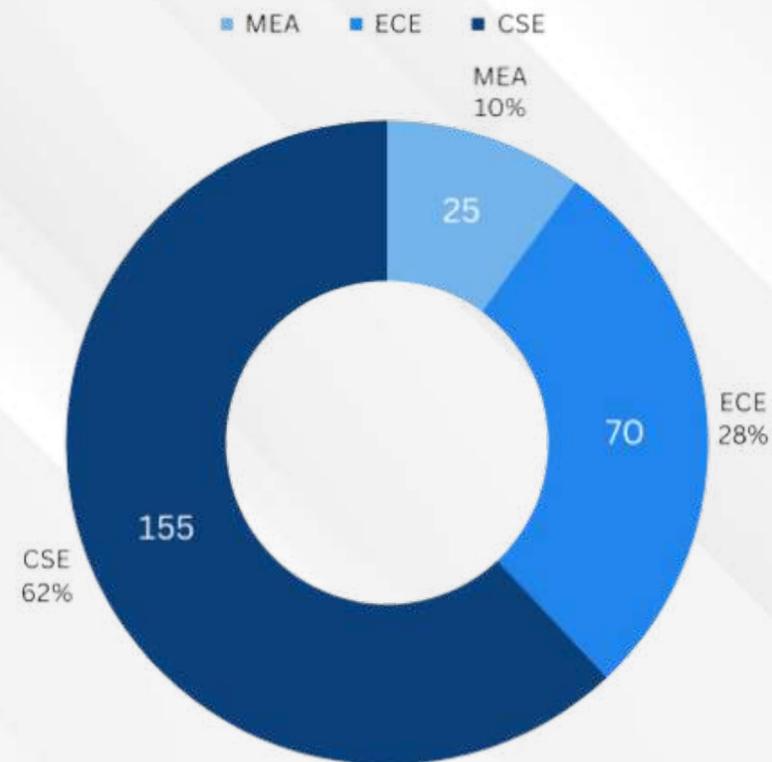

2021 - 25 Batch: B.Tech

Course Duration: 4 Years

Available for Internship: 6 months

Students in CSE: 155

Students in ECE : 70

Students in MEA : 25

2023 - 25 Batch: M.Tech

Course Duration: 2 Years

Available for Internship: 6-12 months

Students in AI and DS: 8

Students in VLSI and Embedded System : 2

Student Body Clubs & Societies

The 'Tech Clubs' at IIIT Bhagalpur focus on enriching the technical knowledge of the students by providing them a platform to help them explore their latent talents and showcase their innovative ideas. The Club tries to encourage more students to become a member to help broaden their skills by organizing regular activities. Some of the activities undertaken by the Tech Club include organizing the Annual Techfest, Internal Hackathons, Technical Workshops, and hosting some Guest Lectures.

PYC Community

We delve into languages, data structures, algorithms, and mathematical concepts.We're committed to building a strong foundation that equips you with the skills to excel in competitive programming challenges.

REC

Robotics Club consists of over enthusiast members with high interest in new technologies and believes in the practice of overall development through working on a hands-on project and live events like Hackathons.

CY-SEC

The Cybersecurity Club is dedicated to inspiring, educating, and dispelling myths surrounding real-world cybersecurity, fostering a deeper understanding to establish a secure cyber environment.

EBSB

EBSB (Ek Bharat Shrestha Bharat) event is indeed an exciting cultural extravaganza for the educational institutes participated in this event. It reminded the students and faculty members that all the people belonging to the diverse cultural background are necessary to build new India.

DEV-C

The Web Development, App Development and BlockChain Clubs provide students with a dynamic platform and essential resources to build skills and actualize projects. We are dedicated to teaching and supporting students in web and app development, fostering a collaborative environment for skill enhancement and project

Entrepreneurship Club

E-Club, is dedicated to cultivating and fostering an entrepreneurial and business mindset among students. Our mission involves creating a vibrant ecosystem that encourages the development of innovative solutions, facilitates networking.
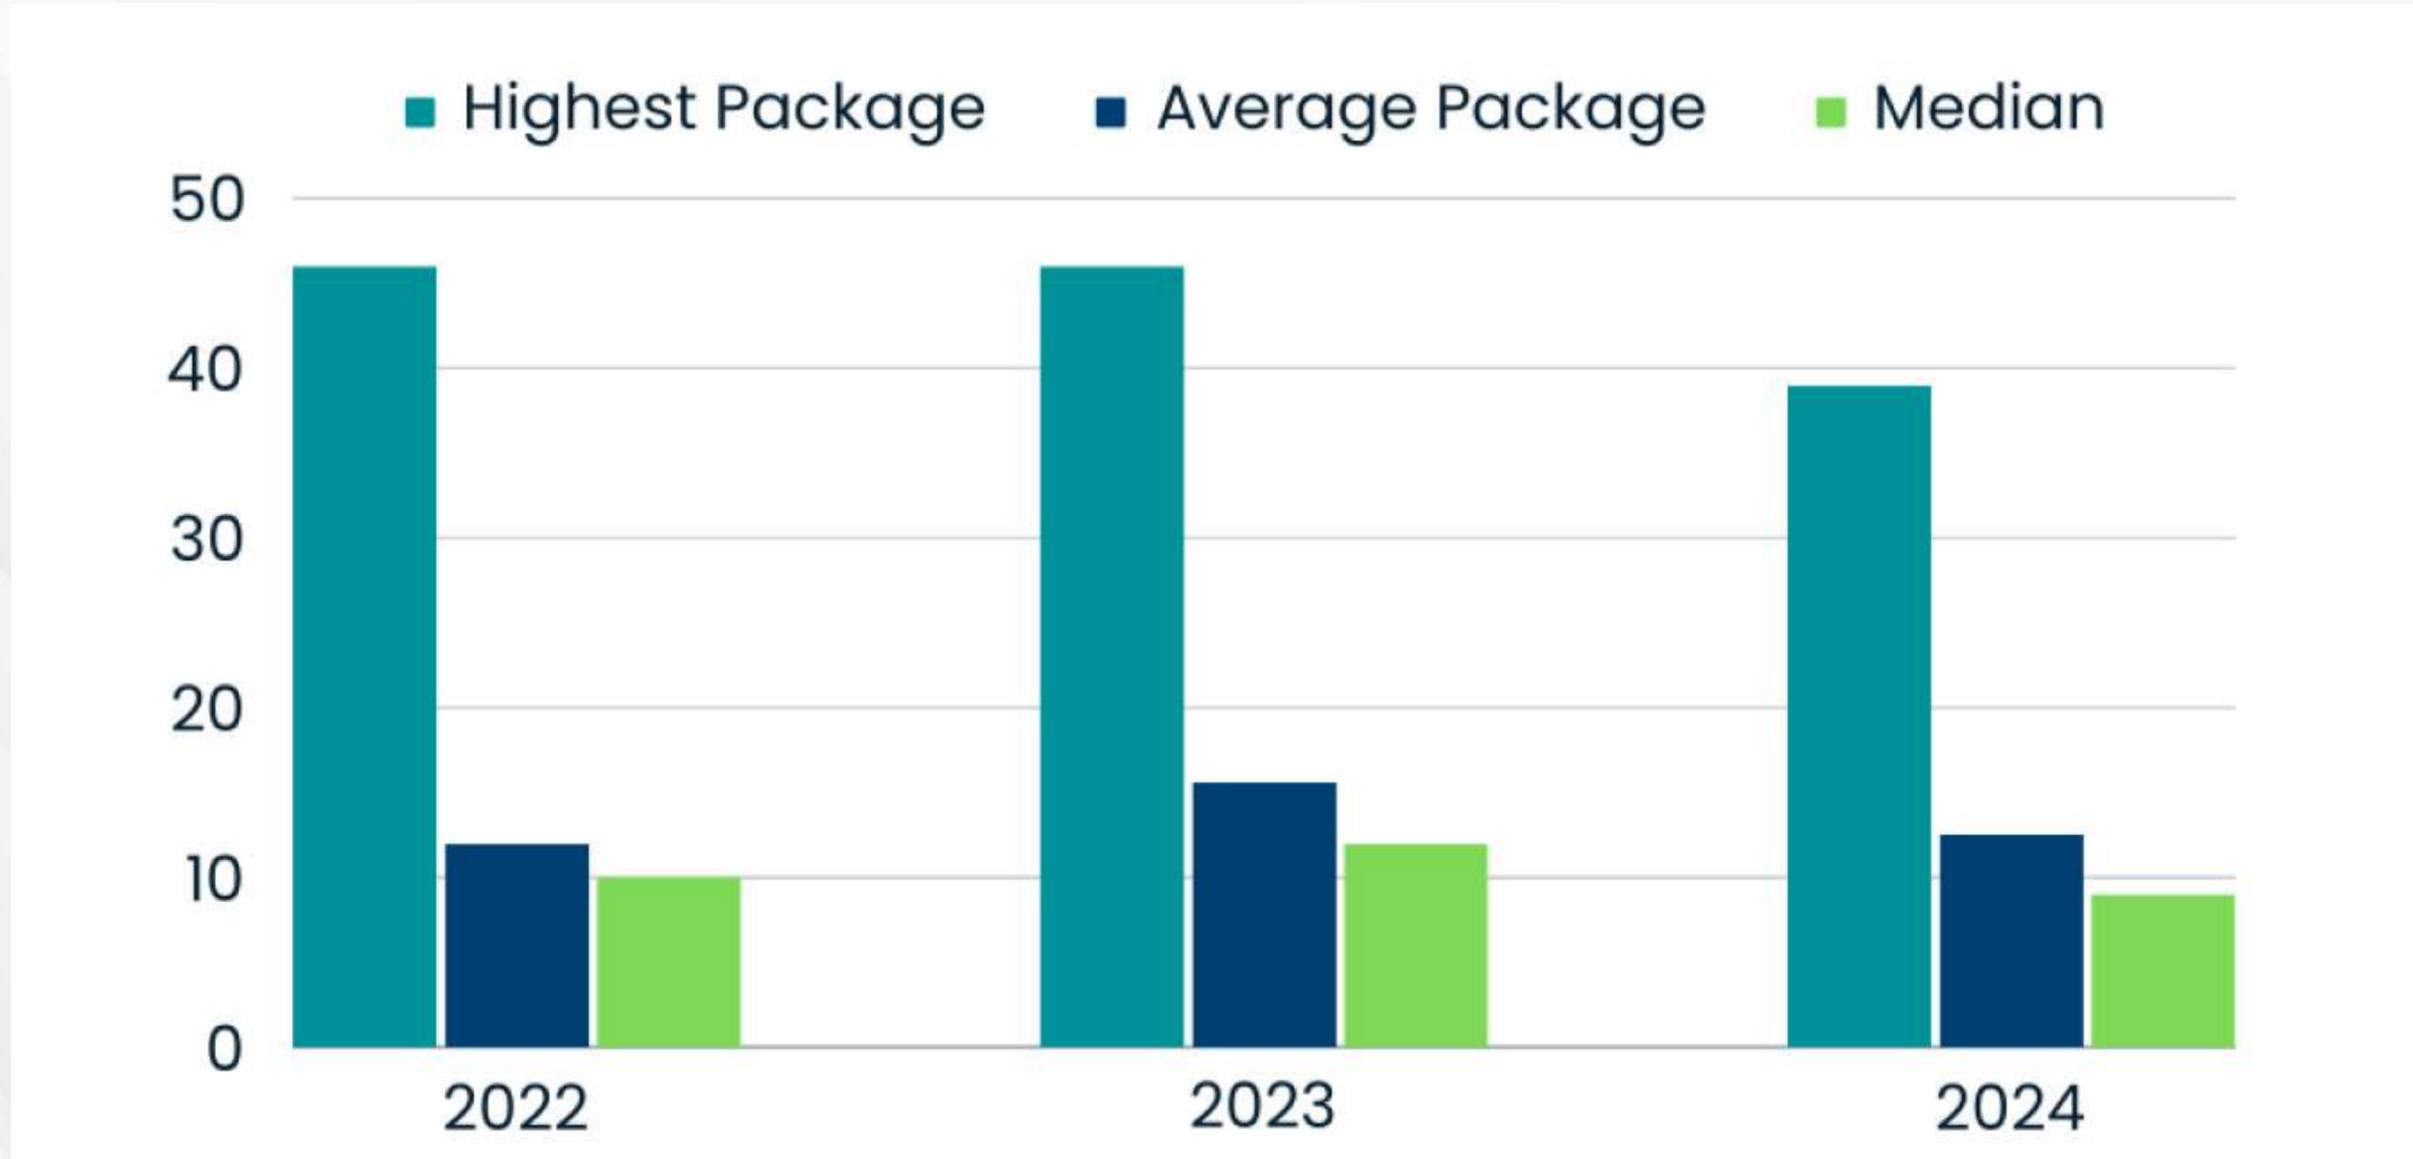

AI/ML Club

The AIML Club at our college leverages artificial intelligence and machine learning to create adaptive systems.We dive into practical experiences through engaging events, competitions, and hackathons, showcasing your prowess in computational intelligence.

GDSC

Google Developer Student Club, IIIT Bhagalpur is a Student Developer Community of IIIT Bhagalpur that conducts many events related to many technical fields such as Web, Flutter, Machine Learning, and Cloud Computing and tries to develop a development culture in the college.

OUR Recruiters

Within six years of it's establishment, students from IIT Bhagalpur have been recruited by the top organizations in the world, and have been visited by 200+ companies.

Academic Internship

Placement Procedure

Formal invitation with relevant information is sent to the companies

A detailed schedule is prepared by the Placement Cell and the company.

Students register for the openings. Company can shortlist accordingly.

Companies are required to submit, a confirmation letter & list of students, same day.

Company fills up job announcement forms (JAF).

Companies' officials conduct pre-placement talks to interact with students.

Companies run their evaluation process for the registered students

The job offer letters are to reach the Placement Cell, in due course of time.
